## Loudoun COVID-19 Updates

### COVID-19 Testing Program Ends

Loudoun County has discontinued our weekly COVID-19 testing events. Demand for testing has declined since the county began sponsoring the events last year. In June, the weekly average of people who were tested at

the events was 47, with a low of 20 people at one event and a high of 60 at another.

Testing is now widely available in the community, including at doctors' offices and pharmacies. You can find information on COVID-19 testing as well as testing locations in Loudoun at [loudoun.gov/covid19testing](http://loudoun.gov/covid19testing).

### PPE Program Ending

Loudoun County will no longer be accepting donations of personal protective equipment (PPE) beginning July 1, 2021.

The [PPE donation program](#) was created in response to the COVID-19 pandemic to distribute PPE to health care providers and facilities in need. Over the last 15 months, Loudoun County distributed over 15,000 items of PPE to nearly 30 different health care providers and collected over \$20,000 in monetary donations for the purchase of PPE.

### From Daily Report to Weekly Report

This is the last week this COVID-19 Summary Report is published daily. Next week, Loudoun County's daily COVID-19 Summary Report will transition to a weekly report, with spot reports published any time as needed.

**Beginning July 12**, the weekly COVID-19 Summary Report will be published on Mondays.

## New Bicycle Laws Take Effect in Virginia July 1st

The Virginia Legislature recently passed House Bill 2262, the Bicyclist Safety Act, which requires the driver of a motor vehicle to change lanes when overtaking a bicycle or certain other vehicles when the lane of travel is not wide enough for the overtaking motor vehicle to pass at least three feet to the left of the overtaken vehicle.

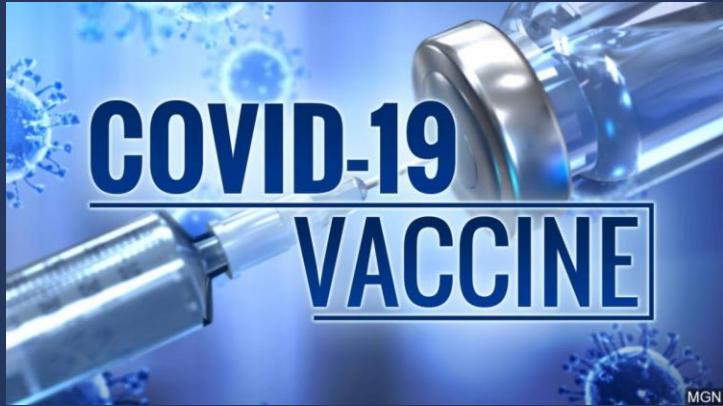

The bill also removes the limitations on riding bicycles and certain other vehicles two abreast. So, two bike riders are allowed to travel side-by-side without having to form single line when a vehicle approaches. Currently, they may ride side by side but must go into a single file line to allow cars to pass.

The Bicyclist Safety Act also convenes a work group to review issues related to allowing bicyclists to treat stop signs as yield signs – and to report any other roadway safety issues to the chairmen of the House and Senate Committees on Transportation.
